

SafetyGrip®
By Hartmobility

Kratos Grab Bars

Grab. Hold. Feel The Difference.

The bathroom is statistically proven to be the most hazardous room in the house. Our Kratos grab bars, featuring a stainless steel substrate for rust prevention and the added reassurance of SafetyGrip® grips, offer the necessary security to prevent slips and falls in the bathroom.

| Kratos Straight

If you're having trouble staying upright or balancing, SafetyGrip's Kratos Grab Bars are here for you, providing a sturdy, comfortable grip. The combination of our slip-resistant technology and configurable installation options puts increased security literally at your fingertips.

Product Details

- Patented technology for a secure hold
- Rated for users up to 350 pounds
- Affordable and configurable
- Aesthetic design
- Custom Installation options
- Fully rust-proof
- Antimicrobial AlphaSan® protection

| Kratos Hinged

Being agile and mobile in the shower or bath can be a challenge for anyone, particularly if you suffer from physical ailments that make moving painful or dangerous. Hartmobility offers SafetyGrip® Kratos Hinged Bars, innovative install-anywhere grab bars that give lots of options for where to hold on, making daily routines safer and easier.

| Kratos Folding

Anytime you need to sit or stand up from a seated position, Kratos can help lighten the discomfort and fear that comes with reduced mobility. Thanks to our foldup design and integrated textured surface, you can remain independent but assisted at the same time, all in the comfort of your own home.

Product Details

- A support arm that neatly folds out of the way when not in use
- Innovative offset rail that helps reduce wrist strain
- Fully rust-proof
- Mounting options on one, or both sides, of the toilet
- Antimicrobial AlphaSan® protection

| Kratos Bath

Made to help maintain your independence while getting in or out of the tub, Hartmobility's bath-mounted handrail is a true lifesaver when it comes to safely maintaining normal life activities as you age.
